

JUSTICE CALLS

- A Federal Court Judge ruled on Jan. 3 that not treating prisoners infected with hepatitis C is barbaric and unconstitutional.
- The Judge ordered the Department of Corrections to treat Mumia Abu-Jamal with the Hep C cure within 21 days.
- We call for the immediate treatment with the Hep C cure of all other PA prisoners infected with the deadly disease.

Please call DOC Secretary Wetzel

- **Ask him NOT to appeal this decision.**

Such an appeal would only extend Mumia's suffering and dangerous deterioration of health.
